

# 365 PicoVend Mini

A new-age vending technology

## Modern vending for today's consumer

- Interactive, dynamic touchscreen display
- Built-in barcode scanner makes app purchasing easy
- 4G Connectivity and payment versatility
- On-screen promotions & advertisement

## The newest and smallest vending innovation

The 365PicoVend Mini is an innovative self-service vending technology that fits on any standard NAMA knockout with a smaller footprint—making it more versatile to fit on most machine models.

As part of the 365 PicoPlatform, the PicoVend is a great addition to your vending fleet with its 365 Global Market Account access, on-screen nutritional information, Promotions and Connectivity versatility, and more.

The 365 PicoVend packs a lot of punch and gives your consumers vending convenience they need and deserve.
