

Consumer Feedback in ADM

Hear directly from your market users.

The Consumer Feedback feature on the Gen 3 kiosk allows you to gather real time input right after transactions. Feedback questions can be structured for Yes/No or Positive/Neutral/Negative responses, making it quick and easy for consumers to provide input on their experience.

Available now
on the Gen3
kiosk!

Feature Advantages

- Gain more insight on the consumer experience
- Users can add contact info for additional follow up
- Utilize feedback reports to track market performance
- Reward consumers for providing feedback - gift cards are a great option (available in ADM)
