Customize your 365Dining Kiosk to provide an enhanced dining experience for both consumers and operators.

Custom Branding

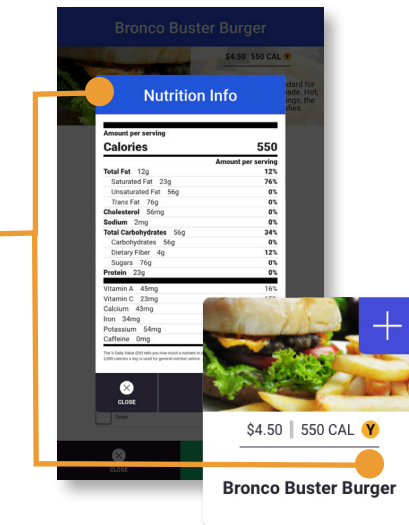

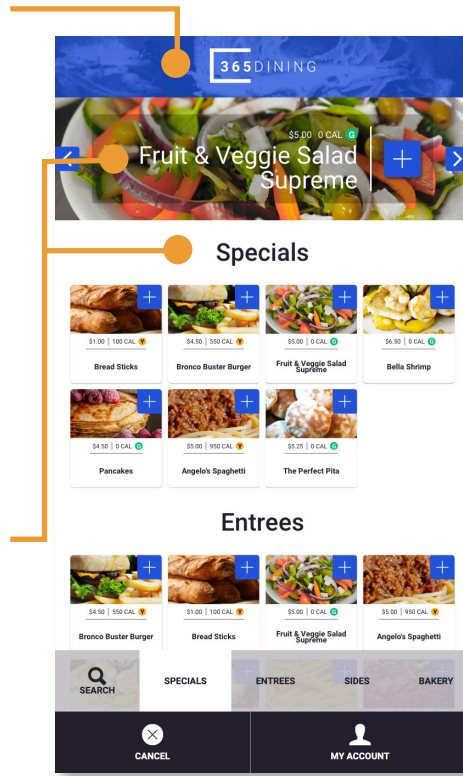

Make the user experience personal with menu branding specific to any organization. Configure backgrounds, logos and even accent colors.

Featured Products

Organize your menu any way you want! With the 365Dining Kiosk, you can feature select products and showcase campus specials in the header of the menu.

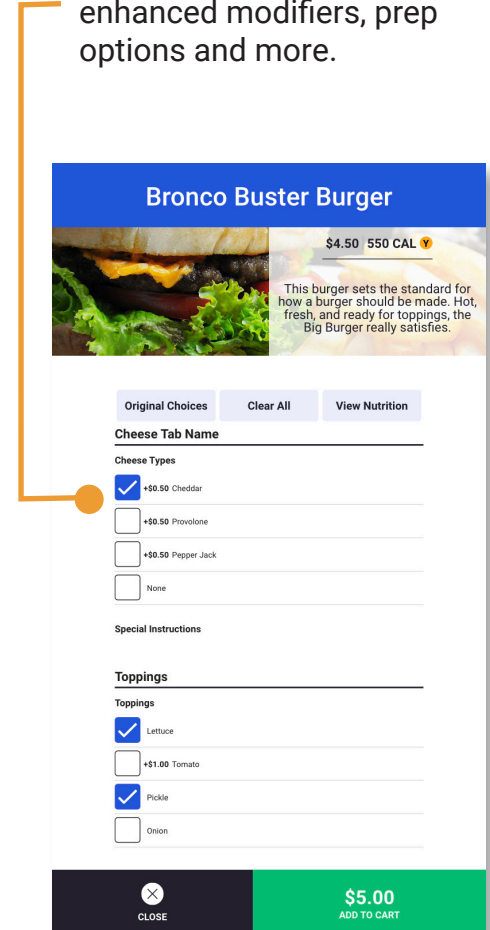

Health-Conscious Dining

Empower your customers to make healthy eating decisions by showcasing color codes (green, yellow, red) to a product based on caloric thresholds as well as transparency in relaying nutritional information for each menu offering.

Amplified Customization

Allow customers to tailor their food the way they want with enhanced modifiers, prep options and more.

Give your consumers a self-service ordering experience they will love.
