

Streamline Your Inventory

Leverage your data to make better decisions

LightSpeed Level

Level helps you consolidate information from around your warehouse to truly understand and optimize your warehouse inventory and purchasing needs.

What does Level do for you?

- » Optimize inventory
- » Increase efficiency
- » Maximize warehouse space
- » Automate receiving
- » Data-driven purchasing

How Does it Work?

Purchasing:

View inventory levels and create purchase orders on the Level website

Warehouse:

Scan deliveries and confirm product and quantity matches what was purchased using a mobile device

Accounting:

Confirm pricing on items received and finalize receipt

Analysis:

Level combines accounting data with picking numbers to measure product velocity, allowing you to make more informed decisions on quantity and timing of future orders

Optimize your operation
