A Management System that works for you.

Parlevel's Vending Management System (VMS) is a truly all-in-one solution. It is the only management system that actually allows you to manage Vending, Micro Markets, and Office Coffee Service side by side.

TAKE TOTAL CONTROL OVER YOUR MICRO MARKET

SALES, MERCHANDISING, AND PROMOTIONAL TOOLS

Increase Sales by running your Market like a Pro.

DETAILED SALES REPORTS

Utilize space to sales ratios, top-selling products, product sales by category, and tons of other reports to increase sales in your Market.

PRODUCT MERCHANDISING RECOMMENDATIONS

See intelligent recommendation for stocking products. Stock more high-sellers, replace slow-sellers, and get more out of your Market

CUSTOM PROMOTIONS

Add featured products, wallet reload promotions, discounted items, and more to drive sales. Set custom promotions to appeal to different locations.

IN-DEPTH MANAGEMENT TOOLS

Decrease Operational Costs and keep your Market running smoothly.

STREAMLINED INVENTORY MANAGEMENT

Track inventory as it moves from order, to warehouse, to truck, to Market. Decrease ordering costs and cut down on spoilage.

INTELLIGENT ROUTING & PREKITTING

Know exactly what product your Market needs at all times. Service your market exactly when it needs it, with precise product quantities. Reduce unnecessary visits and increase service efficiency.

CUSTOM BRANDING & BANNERS

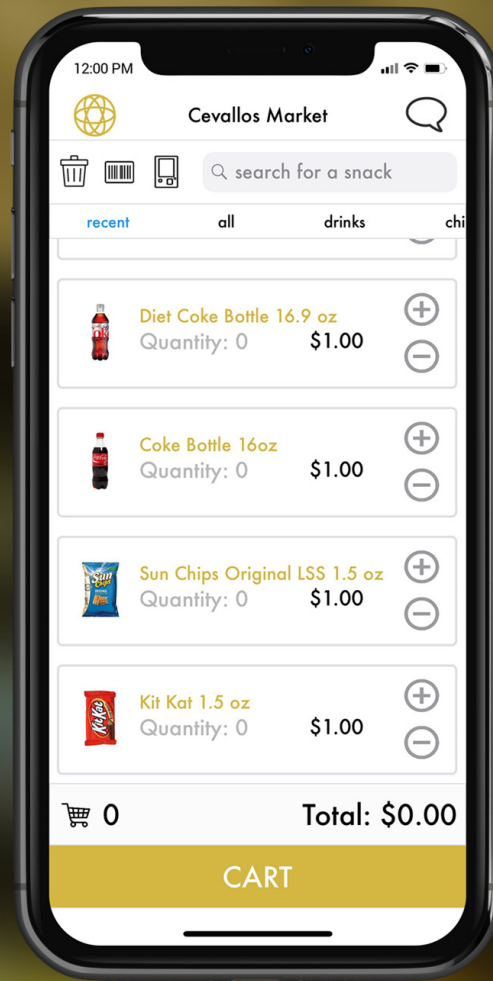

Make your kiosk your own. Upload custom logos, change up your Micro Market theme, and more to increase customer engagement and spur sales.

INTELLIGENT SECURITY MEASURES

Built-in Kiosk webcams, external surveillance cameras, and potential theft flagging combine to keep your Market safe and secure.

koin connects
your customers
to your market.

Anytime,
Anywhere.

1. AN EXTENSION OF YOUR MICRO MARKET KIOSK

koin connects your customers to their Micro Market via web and mobile app. Customers can remotely manage their accounts to reload their wallets, check inventory, provide service feedback, pay from their phone, and other features that enhance your market offering.

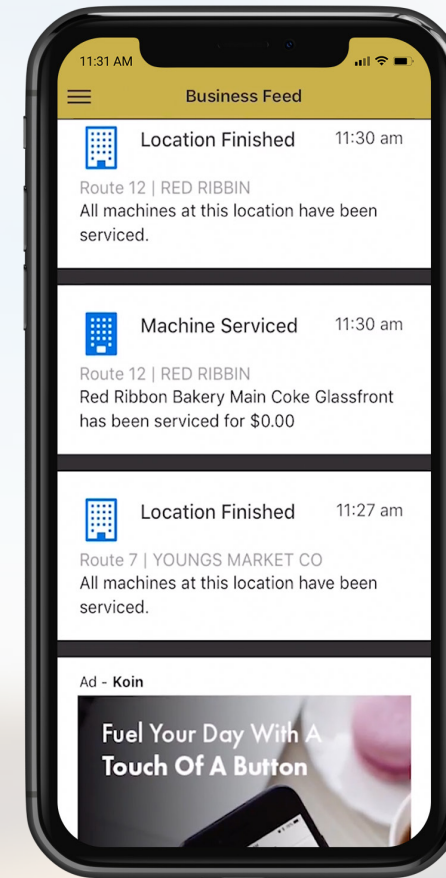

2. USE KOIN AS YOUR CHECKOUT SOLUTION

No wallet? No problem! With koin by Parlevel, your Micro Market customers can pay for products straight from their phone. koin helps you provide added convenience for your customers and keeps you from missing out on sales.

3. KEEP MORE IN YOUR POCKET WITH LOWER TRANSACTION FEES

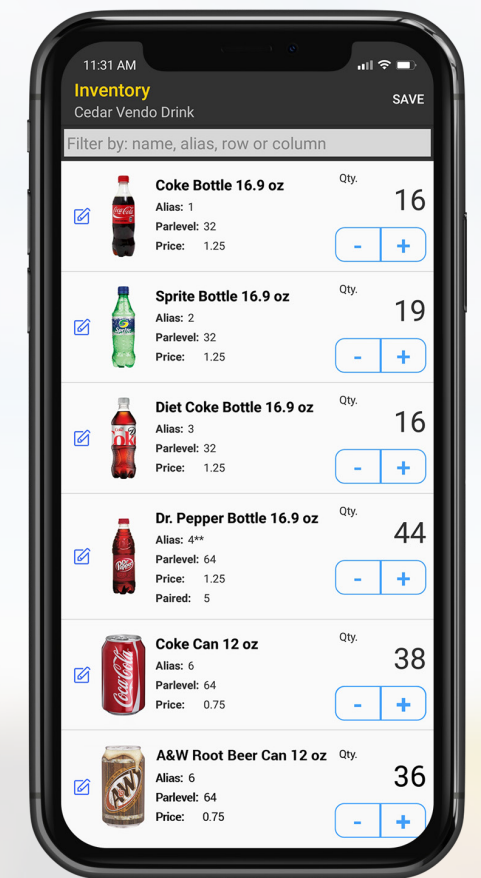

Purchases made through koin are subject to lower or even zero transaction fees. Plus, koin lets your customers set automatic recharges for their stored value account. Once their balance drops below zero, their virtual wallet will automatically be refilled with a pre-selected amount. Speed up transaction times and generate more revenue from constant, uninterrupted recharges.

Your Operation is **ON THE GO.**
Your Management System should be too.

Receive Updates About Your Operation As They Happen

Parlevel's Feed App helps you stay connected to your Business by sending you everything you need to know about your Vending, Micro Market, or OCS operation directly to your phone. Notification settings are totally customizable. Don't want to be bothered by certain updates? No problem! You can choose exactly which notifications you want sent to your phone.

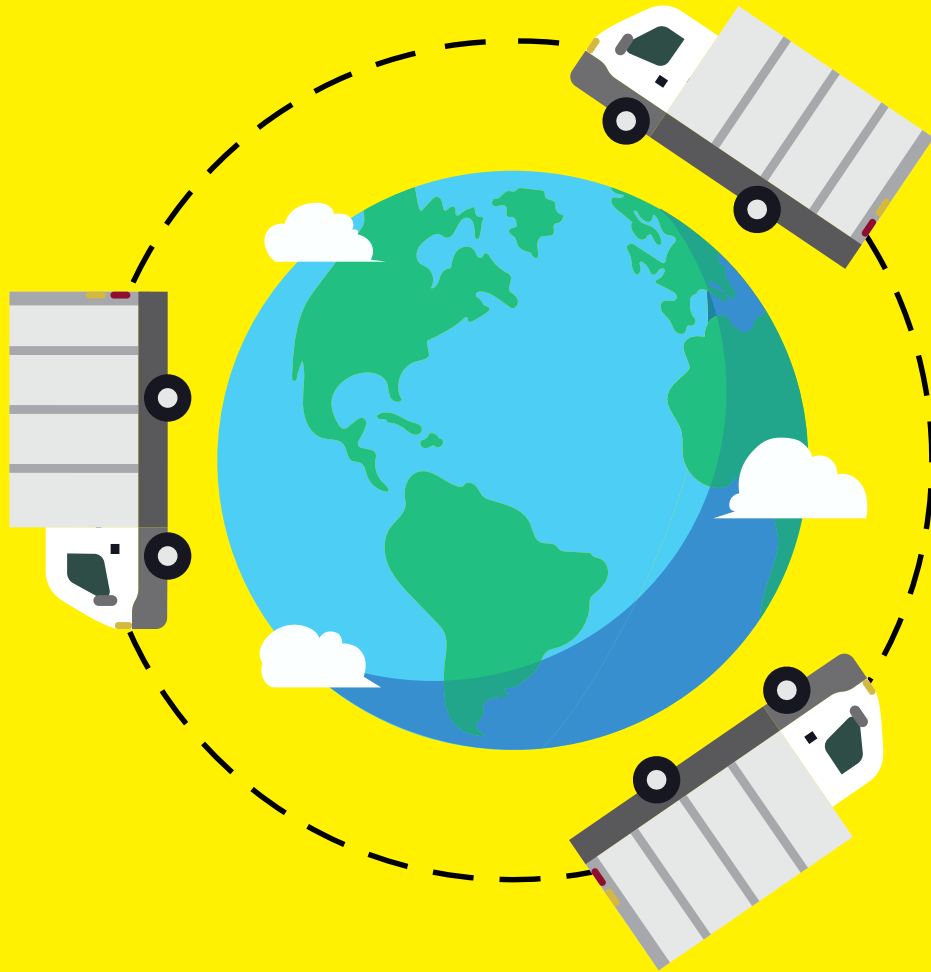

Mobile Servicing App

Stock is a mobile extension of Parlevel's Vending Management System tailored specifically for servicing machines. Take advantage of tools like inventory management, GPS guided route-tracking, service ticket creation and more to increase your service efficiency. Stock brings these features to you in the field right through your phone. Streamline your operation without the need to invest in costly handhelds.
