

# Internet Requirements

## for your micro market

To work as intended, Parlevel micro market kiosks with PayPlus devices require internet speeds of at least 6 MPS and are compatible with:

Once your market is up and running select, scan, pay, and enjoy!

The kiosks requires the ability to establish outbound connections to the following hosts/ports regardless of connection type:

<https://365-parlevel.castlestechnology.com:443>

<https://posgateway.secureexchange.net/Hps.Exchange.PosGateway/PosGatewayService.asmx> (port 443)
