

# AI innovation accessible to everyone

Drive more sales with the new CV Express. Versatile, secure, and innovative.

Explore the power of smart retail with CV Express. Transform your standard cooler into an AI-powered, highly secure, smart retail solution that allows you to sell what you want, wherever you want.

With automatic product recognition, and customizable shelf-spacing, your customers will appreciate the variety and convenience, while you will enjoy the flexibility to install the CV Express Kit on a growing list of coolers.

Capitalize on untapped accounts

## Quick & Easy Installation

With a smart kit design, CV Express can be installed onto a standard cooler in no time at all, allowing for fast deployments to maximize revenue.

## Level up your cooler

Unlike other solutions in the market, CV Express allows you to leverage your existing cooler fleet, extending the life of your retail solutions.

## Re-think checkout

Give your consumers a modern, cashless shopping experience from the palm of their hand, with ApplePay, GooglePay and other in demand payment methods by simply scanning a QR code.

## Welcome to the family

CV Express is part of a market leading family of IoT retail solutions, managed through ADM for seamless device management with Connected Campus.
