

Smart Store Solution for Any Location

## Move over vending, there's a better way

The new Ambient Cabinet from 365 works seamlessly with PicoCooler Vision to create a unified, hassle-free and secure market in almost any location.

The AI-powered unit creates a standalone market, allowing consumers to purchase both refrigerated and ambient products in one transaction. No more pushing buttons and waiting for products to vend- just tap, grab and go.

From everyday snacks like chips, candy, and granola bars to shelf-stable essentials, the PicoCooler Vision and Ambient Cabinet delivers the perfect replacement for outdated vending machines by delivering an elevated, more convenient shopping experience.

Upgrade your vending with Vision

### Maximize convenience with seamless co-selling

Effortlessly offer ambient temperature products alongside chilled beverages, all within a single, convenient transaction.

### Create a self-service market anywhere

Help consumers get what they need, without added trips to additional locations. From drinks and snacks to household essentials and take-and-bake meals, a lot more is possible when you expand beyond vending.

### Enhance security and extend sales hours

Securely offer a wider range of products 24/7, leading to increased appeal and user satisfaction.

### Replace outdated vending

Bring a new level of sophistication to your location with an improved shopping experience, loyalty rewards and more.

### Stay ahead of the curve

Embrace a modern, AI-powered shopping solution that provides flexibility, security, and increased satisfaction compared to traditional vending. No product scanning. Just unlock, grab and go.
