

One partner.  
One ecosystem.  
**Conveniently smart  
retail technology**

# A complete end-to-end experience for operators & consumers

Provide customers with an easy-to-use, Connected Campus<sup>SM</sup> solution.

Whether they're purchasing from your micro market, vending machine, smart store, or cafeteria, you can enable a frictionless purchase experience across all points of sale – improving your customer service and inspiring repeat interactions.

## What is Connected Campus<sup>SM</sup>?

This first-of-its-kind, fully-integrated, consumer experience ecosystem seamlessly connects a location's 365-based micro market, smart store, office coffee service (OCS), vending and dining technology.

## Consumer convenience

Provide a unified checkout solution to boost customer satisfaction. Let consumers leverage a Global Market Account (GMA) to create and fund accounts, view purchase history, scan and pay for products, and more – directly from their phone.

Seamless checkout across points of sale. All at the touch of a finger.

## All-in-one management

Optimize your operational efficiencies by managing everything in one place. See high-level insights across your entire operation to make decisions that matter. One system to learn, one system to use, one system to succeed.

# Find the perfect solution for any micro market location

## MM6 & MM6 Mini

High-value accounts demand high performance. Attract, engage, and satisfy consumers more effectively through the MM6 line of kiosks. MM6 packages an intuitive self-checkout application into an easy-to-use, ultra-sleek aesthetic.

Utilize MM6 for Markets in premium accounts, where features like battery backup, a large display, and rapid checkout are a must.

Deploy MM6 Mini in smaller accounts where flexibility is key. Use tabletop or wall-mount configurations to create a full micro market experience in a limited space.

## PicoMarket

Profitably serve small or non-traditional accounts through a compact, scan-and-go solution. Or pair PicoMarket with full-size kiosks to effectively reduce queues and increase location sales.

AI-Powered Smart Solutions

# Product diversity. High security.

Combine secure access with product diversity to capitalize on new account opportunities.

- **Highly secure** – Stockwell only unlocks when payment is provided
- **Diverse products** – Stock high margin items across ambient and refrigerated zones
- **Easy checkout** – AI recognition knows exactly which products were selected and charges accordingly

# Open the door to improved consumer convenience

Confidently expand your service footprint with PicoCooler Vision.

- **Stock more products** – Increase your product facings and quantities through a spacious, five-shelf refrigerated point of sale
- **Secure new locations** – PicoCooler Vision restricts access until consumers present their preferred cashless payment method
- **Provide frictionless checkout** – As consumers make their selection, advanced AI and computer vision technology automatically recognizes and charges for removed products

**NEW!** Enable age verification to sell age restricted products with PicoCooler Vision

We struggled with theft.  
**About 40%.** We brought in [PicoCooler] Visions, and it brought that 40% to **zero.**"

**Jason Postl**  
Fresh & Easy Markets

# Extend your vision, extend your sales

The new Ambient Vision Cabinet from 365 works seamlessly with your PicoCooler Vision to create a unified, hassle-free and secure market in almost any location.

- Maximize revenue with seamless co-selling**  
Unlock new revenue by offering ambient temperature products alongside chilled beverages, all within a single, convenient transaction
- Simplify operations & reduce overhead**  
Eliminate the complexity and cost of managing separate vending machines with a unified solution that integrates seamlessly with your existing PicoCooler Vision
- Enhance security & extend sales hours**  
Securely vend a wider range of products 24/7, even in high-theft environments, leading to increased sales opportunities and higher ticket prices

## Stop theft before it happens.

With MarketSight™, operators can easily add a layer of theft deterrence to an existing location, or expand to new locations confidently.

- Real-time AI detection** – MarketSight™ helps identify potential missed scans before checkout is complete
- Retrofit in minutes** – Upgrade any MM6 Mini in under 10 minutes with our pre-assembled kit
- Actionable Insights** – View under-ringing events directly in ADM alongside cancel reports for targeted resolution

# AI innovation accessible to everyone

Drive more sales with the new CV Express. Versatile, secure, and innovative.

- **Quick & easy installation** – With a smart kit design, CV Express can be installed onto select coolers in no time at all, allowing for fast deployments to maximize revenue
- **Level up your cooler** – Unlike other solutions in the market, CV Express allows you to leverage your existing cooler fleet, extending the life of your retail solutions
- **Rethink checkout** – Give your consumers a modern, cashless shopping experience from the palm of their hand, with ApplePay, GooglePay and other in demand payment methods by simply scanning a QR code

# Never miss a sale with our suite of cashless devices

Combine reliable solutions with powerful management tools to boost your bottom line.

## PayPlus A complete cashless solution

### Boost sales instantly

Offer cashless payment options like credit, debit, mobile wallets (Apple Pay & Google Pay) to turn lost sales into happy transactions.

### Reliable hardware

Enjoy uninterrupted sales and peace of mind with a robust 4G, EMV-compliant device.

### Data-driven decisions

Use PayPlus with 365 VMS to gain valuable insights into machine performance and make decisions that positively affect your bottom line.

## PayPlus Omni Cash & cashless in one device

### Easy installation

Mount PayPlus Omni over your existing bill acceptor to create one, unified payment terminal.

### Increase revenues

Grow machine revenues by accepting both cash and cashless payments in one device. Cater to every consumer and watch your sales soar.

### Straightforward checkout

With just one payment terminal to interact with, your customers can easily pay, pick, and enjoy.

PayPlus

PayPlus Omni

From day one, I was able to see more operational data than I had ever had access to before.”

**Mike Kever**  
The Break Room Co.

**NEW!** Remote Price Change functionality delivers an efficient way to update prices across your fleet of machines.

## Vending Management System

Get more out of your operation.

### Dynamic routing

Eliminate unnecessary stops and only service locations that need it.

### Precise prekitting

Bring exact product quantities to each location, helping you service more efficiently.

### Merchandising & optimization

Increase point-of-sale revenues by acting on product merchandising recommendations to optimize planograms.

### Actionable reports

Choose from hundreds of detailed reports to gain insights on your operation.

# Serve up profitability while delivering excellent customer service

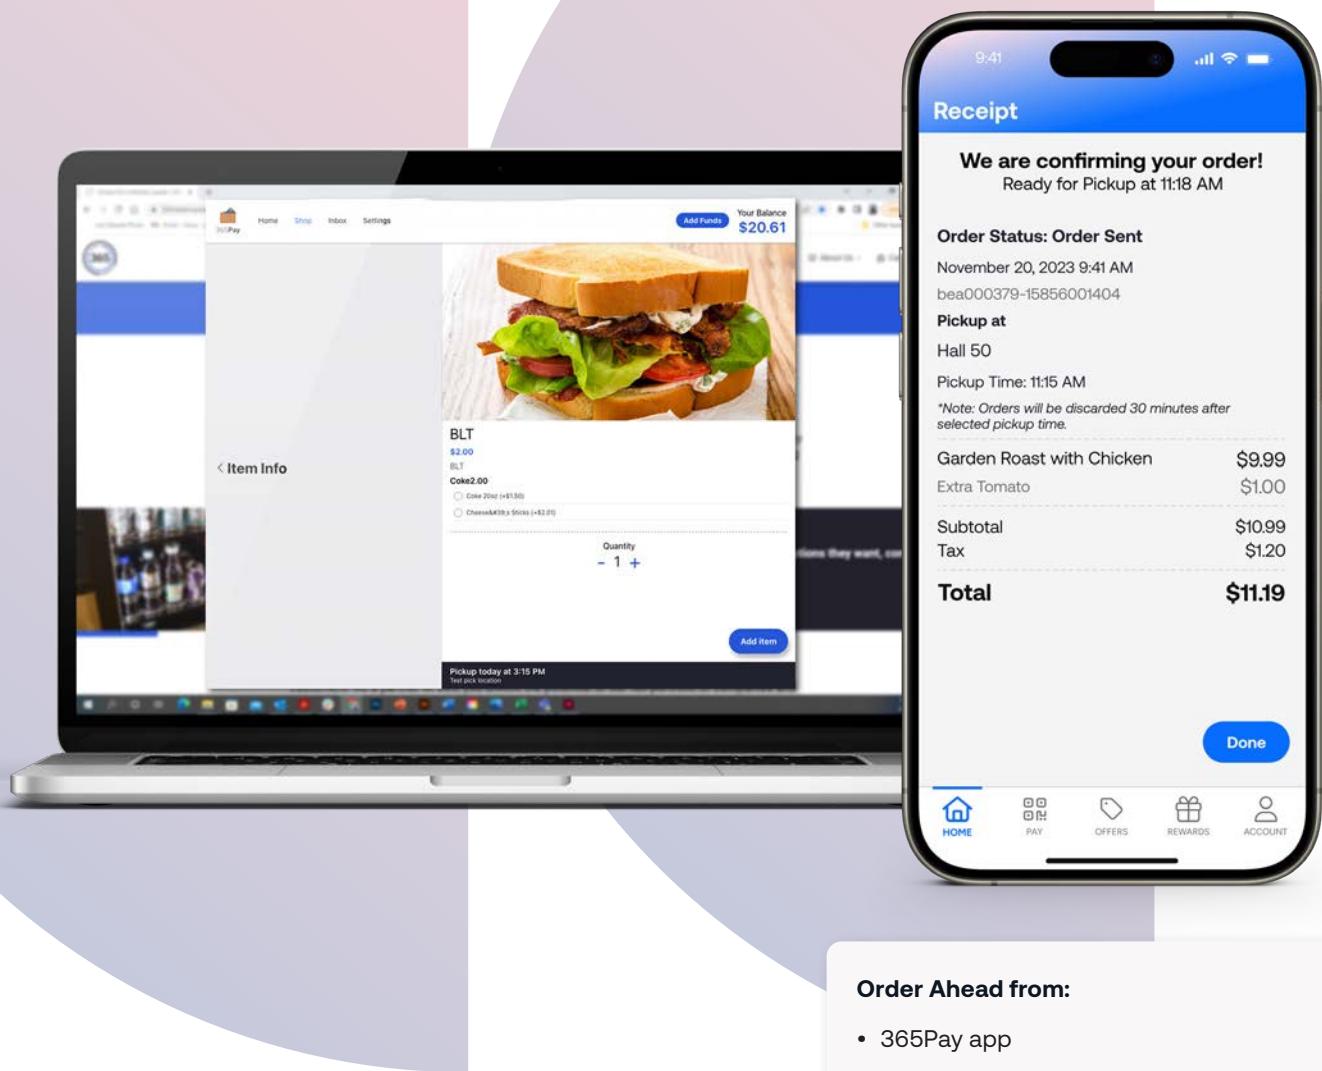

365 Dining offers a refreshed approach to the food service experience for both operators and consumers.

## Flexible dining

Offer a cashier or unattended ordering solution that makes the journey enjoyable, not frustrating. Give consumers the convenience they expect, and they'll keep coming back for more.

- **Seamless ordering** – Let customers explore menus, customize items, and order with ease
- **Custom branding** – Add custom logos, menus, and more to create an experience that aligns with your company
- **24/7 service** – Let customers check out without a cashier present. Offer scan-and-go items outside cafeteria hours to boost revenues

## Order Ahead

Meet the end-user's modern-day expectations with fast, simple, and easy ordering.

- 365 Dining locations that utilize Order Ahead capabilities have a 200% increase in both transactions and revenue versus locations without
- Let consumers order on their own time, and choose a pick up that works best for their schedule
- Order Ahead minimizes time and labor costs for any dining operation by allowing customers to self-serve

### Order Ahead from:

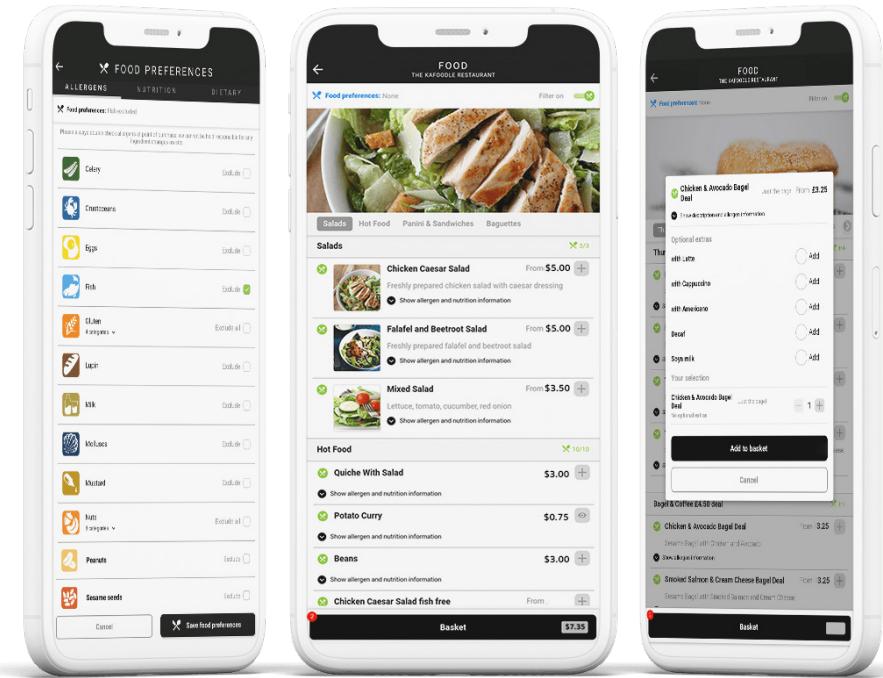

- 365Pay app
- Any laptop, desktop or mobile browser
- MM6 or MM6 Mini dining kiosk

## Kitchen Management

### Smart food management from ingredients to insights

365 Kitchen Management is an all-in-one foodservice software solution for recipe building, meal planning, inventory tracking, and food labeling—designed to drive compliance, reduce waste, and support cost-effective kitchen operations.

## Your complete toolkit for modern food service operations

- **Recipe & menu management:** Centralize recipes, calculate nutrition and allergens automatically, and organize menu cycles for consistency & compliance
- **Digital menus & meal planning:** Create tailored meal plans and interactive menus that adapt to dietary needs and help meet nutritional goals
- **Inventory & waste tracking:** Maintain accurate stock levels, reduce waste, and keep costs under control with built-in supplier integrations and reporting tools
- **FDA-compliant food labeling:** Generate clear, accurate labels with carbon footprint, allergens, and calorie info—ready for print and inspection
- **Electronic meal ordering:** Support personalized, person-centered ordering in healthcare and education with real-time visibility and feedback

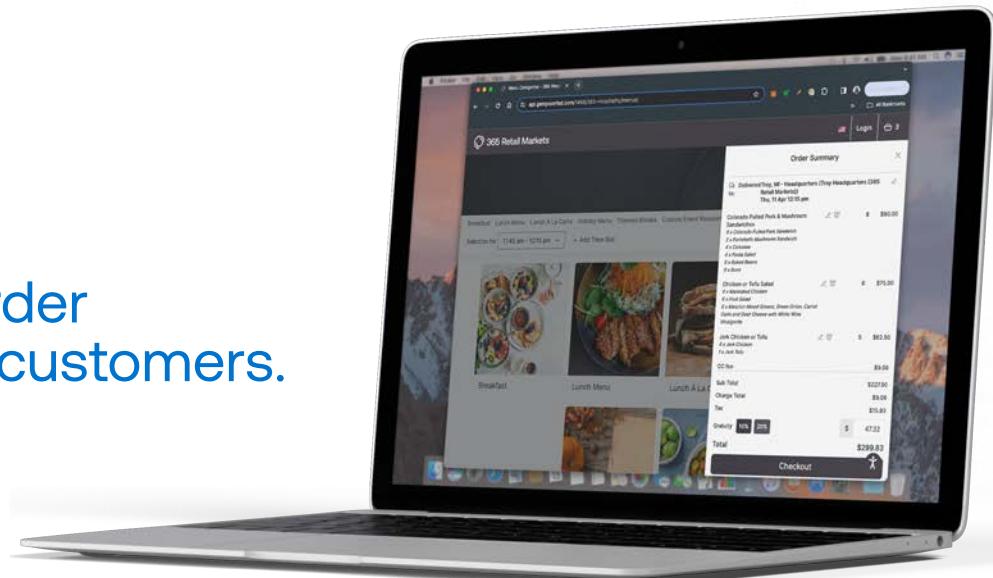

## Catering

Simplify catering operations,  
streamline growth

365 Catering is a robust catering management platform built to help foodservice teams handle complex orders, menu customization, production planning, and multi-site coordination—in one intuitive system.

Streamline the order  
process for your customers.

Manage custom menus, orders, and deliveries with one connected platform

- **Online ordering & custom menus:** Dynamic menus tailored by location, time, dietary needs, and user permissions
- **Order & quote management:** Create, track, and convert quotes to orders with flexible approval flows and payment options
- **Production & delivery coordination:** Plan kitchen prep, assign deliveries, and export reports to ensure every order is on time and accurate
- **CRM & invoicing:** Built-in tools for managing customer relationships, account preferences, and consolidated invoicing
- **Marketplace integration:** Expand service through multi-vendor marketplaces—ideal for hybrid kitchens or co-working spaces

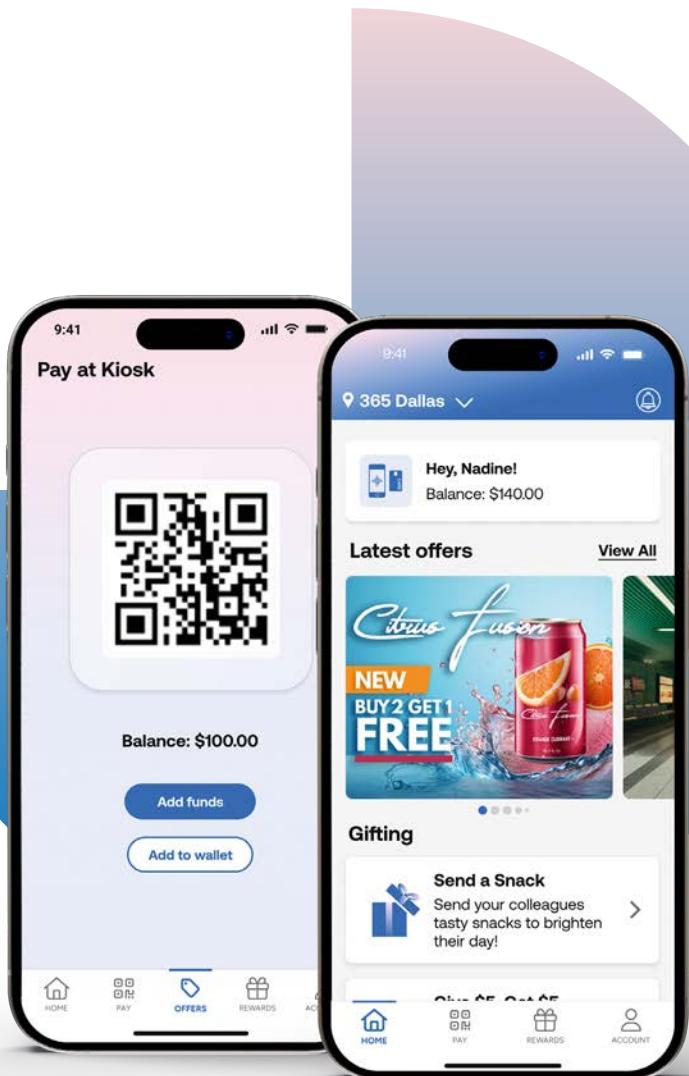

# Put your business in the palm of your hand

Mobile solutions to increase customer satisfaction and streamline operations.

## 365Pay app

A mobile extension of your point of sale. 365Pay enables your customers to checkout, earn rewards, manage their accounts, and more – wherever they are.

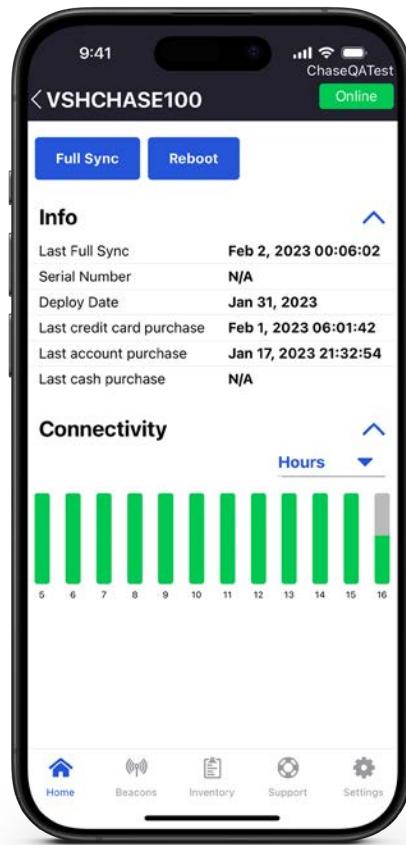

- **Mobile checkout** – Increase revenues by offering more ways to pay. Plus, customers can use 365Pay to quickly check out if kiosk lines are long
- **Consumer engagement** – Drive interaction and increase revenue with strategic push notifications and in-app promotions
- **Loyalty and rewards** – With a mobile account, customers can view purchase history, build rewards, and more – inspiring repeat purchases
- **Connected Campus** – 365Pay works across 365 technologies including micro markets, smart stores, and vending – providing a seamless purchase experience across your points of sale

## 365 Ops app

Manage unattended retail locations on the go. A single app puts micro market, dining, vending and smart store operations in the palm of your hand.

- **Manage anywhere** - Confidently aggregate business insights and see high-level sales information to help you make meaningful business decisions
- **Increase uptime** - Get device issues resolved quickly. Sort alerts to prioritize key accounts, reboot remotely to avoid service calls, and self-provision the 365 Beacon to enable mobile scan-and-pay to keep consumers moving
- **Optimize operations** - View product and inventory details and make edits, including product image updates and quantity adjustments. Capture Stockwell service images during restock to help confirm inventory changes for the back-office

# The warehouse automation tools you need to streamline your operations

Utilize the best warehouse management systems to reduce labor costs, reduce mispicks, and take control of your warehouse without breaking the bank.

## FastTrack

**Run a better warehouse through a robust pick-to-light system.**

Ideal for operators with 8+ routes, this pick-to-light order fulfillment system enables larger businesses to reduce warehouse needs, redeploy personnel, and combat labor shortages.

### FastTrack is:

- The most trusted order pick system in convenience services
- An easy-to-use LED light technology that directs prekitting activities
- Backed by a turn-key installation process with training support
- The key to reducing labor costs while running a smoother warehouse
- Essential for operators looking to save money in their pick lines

## Xpress

**Reduce warehouse labor costs for as little as \$25 a day.**

For smaller warehouse operations, trust the Xpress mobile warehouse solution to boost labor efficiency, reduce overtime, and cut down on mispicks. Xpress utilizes a tablet mounted on any mobile cart or pallet jack to help your warehouse personnel pick with confidence.

### How it works:

- Xpress directs your worker through the warehouse on an efficient route
- Enable personnel to pick multiple orders at one time
- Consult product images on screen to assist with accuracy
- Easily change actual picked quantities made on the line and report to VMS
- Forces confirmation of the pick item, ensuring focus and accuracy
- Reduce overtime & watch Xpress pay for itself

# Leverage existing data to generate new revenue streams

Use operational data to increase revenues via advertising and business intelligence.

## 365 Digital Signage

Transform your market screens into powerful communication and sales drivers.

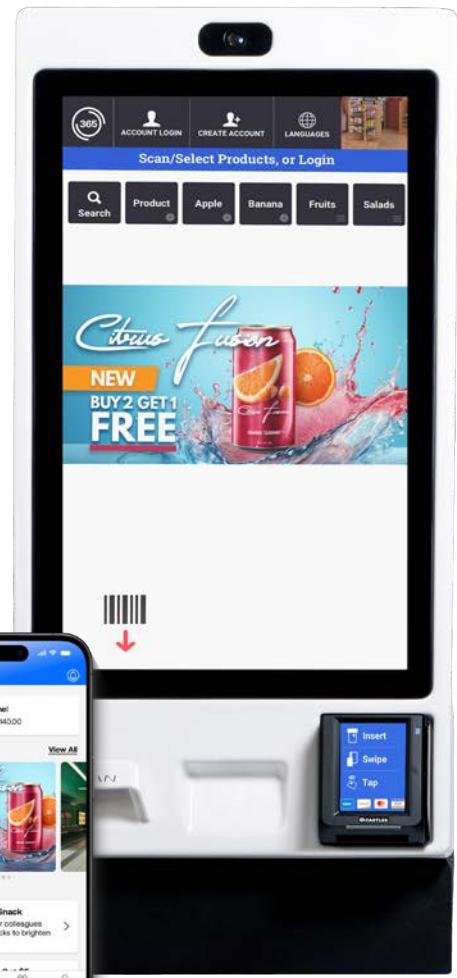

This exciting platform empowers operators to boost sales, generate advertising revenue, and strengthen client relationships, all through a dedicated, easy-to-manage platform. Take control of your customer experience and unlock the full potential of your market screens with 365 Retail Markets Digital Signage.

# The power of extended reach

## Activate your audience

- **Boost sales with targeted promotions** – Drive impulse purchases and increase average transaction value by strategically promoting products directly on and around the point of sale
- **Generate revenue through advertising** – Turn your market screens into a profit center through paid advertising from vendors, local businesses, or even national brands
- **Strengthen client relationships through enhanced communication** – Go beyond traditional advertising and utilize your market screens to foster stronger relationships with your clients, allowing them to communicate key messages as a part of their workplace strategy

## Custom Data Solutions

Tap into big data to streamline operations, make informed decisions, and achieve your business goals.

With CDS, retailers are well-equipped to navigate the complexities of the food and beverage industry. Elevate your success in a rapidly changing landscape by turning accurate data into a strategic advantage.
