

# Never miss a sale with our suite of cashless devices

## PayPlus Omni Cash and cashless in one device

### Easy installation

Mount PayPlus Omni over your existing bill acceptor to create one, unified payment terminal.

### Increase revenues

Grow machine revenues by accepting both cash and cashless payments in one unified device. Cater to every consumer and watch your sales soar.

### Straightforward checkout

With just one payment terminal to interact with, your customers can easily pay, pick, and enjoy.

**Grow your machine sales**

## PayPlus A complete cashless solution

### Boost sales instantly

Offer cashless payment options like credit, debit, and mobile wallets (Apple Pay & Google Pay) to turn lost sales into happy transactions.

### Reliable hardware

Enjoy uninterrupted sales and peace of mind with a robust 4G, EMV - compliant device.

### Data-driven decisions

Use PayPlus with the 365 VMS to gain valuable insights into machine performance and make decisions that positively affect your bottom line.

Both devices work with the 365Pay app, which lets your customers use one account to pay and build rewards across vending, micro markets, smart stores, and other points of sale.
