

PicoAmbient Vision

An easy replacement for snack vending

An AI-powered Ambient Cabinet that can stand on its own

The PicoAmbient Vision from 365 Retail Markets delivers a new level of sophistication and appeal to your clients, with a seamless shopping experience that requires no product scanning. Move beyond traditional vending with an AI-powered cabinet that allows customers to self-serve ambient temperature products, from snacks to household essentials.

Frictionless shopping, higher sales

Attract more customers with an incredibly easy “grab-and-go” experience, leading to increased impulse purchases and higher sales volumes.

Complete control & customization

You choose what to sell, how much to charge, and when to restock. Tailor your product offerings to maximize appeal and profitability for any location, without the restrictions of vending spirals.

AI & computer vision accuracy

Enjoy peace of mind with intelligent technology that accurately tracks products removed, ensuring correct charges and minimizing shrinkage.
