

## 365 Dining Handheld

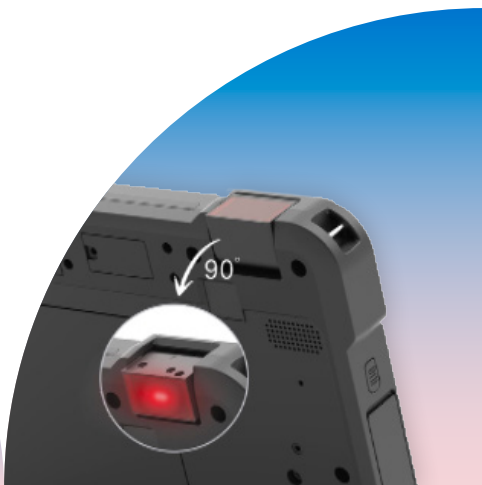

# Upgrade your ordering experience: Introducing the 365 Dining Handheld

Boost efficiency, slash wait times, and serve more customers

The 365 Dining Handheld tablet is your solution for maximizing order throughput and enhancing the customer experience. This mobile cashier tablet integrates with your existing 365 dining technology, empowering your team to take orders on the move and keep lines flowing, even when space is at a premium.

- **Reduce Customer Wait Times** – Your cashiers can now take orders directly from customers anywhere in your dining space, significantly cutting down wait times and improving satisfaction
- **Maximize Order Throughput** – Process more orders faster, even during peak hours. The 365 Dining Handheld lets you capture more sales without needing additional permanent POS stations
- **Flexible Deployment for Any Scenario** – Whether it's in-seat ordering, temporary patio service, pop-up food stations, or even food trucks, this lightweight and portable solution adapts to your unique operational needs
- **Simple for Cashiers, Easy for Customers** – Enjoy the same familiar consultative ordering experience as your existing 365 devices. Customers can pay conveniently using their 365 market accounts (365Pay app) or credit/debit cards
- **Scalable & Space-Saving Design** – Easily add multiple tablets to your location without the complex cable requirements or significant space needed for traditional POS systems

Enhance your customer flow
