

The smartest way to sell frozen, anywhere

AI-powered freezer that expands your selling opportunities.

The PicoFreezer Vision is your gateway to expanding into the lucrative frozen goods market. This AI-powered smart freezer allows you to offer a wide range of frozen treats, meals, and more, all while enjoying a seamless, secure, and highly profitable operation.

Frictionless shopping, increased sales

Consumers unlock with their preferred payment method, grab what they want, and go. This simple, intuitive experience drives higher engagement and increased sales.

AI & computer vision accuracy

Say goodbye to shrinkage!

Our advanced technology ensures accurate billing for everything that's removed, protecting your profits.

Complete control & flexibility

Choose products, manage inventory, and set your own prices, giving you full command over your business.

Expand your smart market

Seamlessly pair the PicoFreezer Vision with your existing PicoCooler Vision and PicoAmbient Vision units to create a comprehensive, secure, and profitable unattended market that caters to every consumer need.

Ideal for high-traffic locations

Perfect for workplaces, hospitals, apartment buildings, and more, providing a highly desirable amenity that generates consistent income.

Add PicoFreezer Vision to your lineup today.
