

Tap & go for coffee and cravings

An innovative, cashless payment device for automatic tabletop coffee machines that allows consumers to vend beverages and purchase market items in the same transaction.

One transaction on one device delivers unlimited potential for how micro market and office coffee operators serve their customers.

- Boost sales with easy cashless acceptance for coffee machines
- Increase revenues by offering upsell items such as breakfast items, snacks and cold refreshments
- Influence sales with a 5" touchscreen that shows how to pay, cart itemisations, ads, and branding
- Consolidate back-office management and reporting for coffee vending and micro market channels with Connected CampusSM integration

Easy setup for fast deployment

- Plug & Play design with custom built stand for tabletop deployment, no expensive fixtures required
- All-in-one solution, removing the complexity and cost of separate payment devices for coffee and market items
