

The Gen3c kiosk offers unprecedented functionality, and was built to optimize existing locations, as well as encourage development within smaller locations. This unit includes our new 2-sided credit card reader, a newly recessed fingerprint scanner, and our latest 3D barcode scanner with the ability to scan coupons from mobile phones. The Gen3c kiosk also features a detachable MEI bill validator and receipt printer. The new front loading door with T-lock makes accessing these components easier than ever, and at locations using our new email receipts and MyMarketAccount.com you'll rarely need to service them at all.

Mounting Options

Mounts to an existing countertop
Floating shelf available for purchase separately

Specifications

Item	Description
Housing	Scratch resistant ABS with UV cap. Printer and bill acceptor inside secure full metal enclosure.
Dimensions (HxWxD)	27" x 23" x 14"

Secure. Scalable. Reliable.

The Gen3 kiosk offers unprecedented functionality, and was designed with both our operators and end-users in mind. This unit is ideal for white collar locations that prefer cashless-only, as well as larger locations that need an additional payment center. The Gen3 comes equipped with an all-new compact form factor, zero maintenance design, a versatile credit card reader, a newly recessed fingerprint scanner, and the latest in 3D barcode scanning technology. Features include bilingual capability, email/SMS paperless receipt options, new SmartHQ beta reports, and an updated kiosk interface. The Gen3 is built with heat-tempered, scratch-resistant ABS and a UV cap.
