

## AV LIVE

### Release Notes 2019.15.0

- The following new features and updates were deployed on 12/10/2019.

### AV Live

- **What's new**
  - We've added the ability to send DEX data to the Vendmax VMS. You must contact Crane to get approval and your identifier before we can turn it on. Crane charges a fee to receive DEX data from an external provider.
