

ADM Location List Screen Dashboard

Introduction

As part of the kiosk release rel-200117-server, the following updates to the **Location List** screen in ADM are now available to assist operators in watching the Revenue, Transactions and Average Purchase Amount totals as the day progresses. It is in an easy to read format and is limited to the users and roles that need the information.

Location List Screen Dashboard and Responsive Totals

On the **Location List** screen in ADM (homepage dashboard), three new total values have been added above the Location List.

- **Daily Revenue** is the first value that displays.
- **Total Daily Transactions** is the second value and displays to the right.
- **Avg. Purchase Amount** is the third value that displays.

Note: The values will only aggregate for the locations to which an ADM user has access, not to all locations in the org. If a user only has access to a subset of locations, only those locations will be included in these new sections.

The screenshot shows the ADM interface with a blue header containing navigation menus (Location, Product, Menu, Reports, Admin, Super) and user information (Ideas | Help, AM, Anne-Marie). Below the header are three summary tiles: Daily Revenue (\$0), Total Daily Transactions (0), and Avg. Purchase Amount (\$0). The main section is titled 'Location List' with a dropdown for 'Active Locations'. It includes a 'Show 50 records' control and a search box. Below is a table with columns: Devices, Location Name, Daily Revenue, Daily Transactions, Last Inventoried, and Email.

New Role Permissions

A new permission, **View Store Totals on Dashboard**, has been added in User Roles and Permissions. When this permission is selected, the Totals dashboard will display. When not selected, the Totals dashboard will not be visible.

Another new permission, **View Dashboard**, has been added in User Roles and Permissions. When this permission is selected, it will display all information in the dashboard grid for the locations for which the user has access, including the new Totals tiles. When not selected, only Devices, Location Name, Last Inventoried, and Email will be visible. The *Daily Revenue* and *Daily Transaction* columns will not appear in the grid and the Totals tiles will not display.

For both of these new permissions, the permission for Super and Operator roles, will default to **ON**. For all Reporter and Driver roles, it will default to **OFF**.
