

Cisco RV110W Wireless-N VPN Firewall Specs

The Firewall

The Cisco RV110W Wireless-N VPN Firewall offers a simple and highly secure connection that is built directly into the 365 Retail Markets Gen3 kiosk. This router comes standard with a high-speed, 802.11n wireless access point, and a 4-port 10/100 Mbps Fast Ethernet switch.

The proven firewall ensures that all transmitted data is secure and safe. The remote access connectivity with IPsec support allows 365 to help troubleshoot any issues if needed.
