

ADM New Ideas Link

Introduction

A new custom link has been added to ADM called **Ideas**. The link, located on the right side of the Menu Bar, will take users to a new ADM page that is public. The page will prompt them to submit their ideas for improvements to the 365 system software. A new tab will also be available on each ADM page called **Got any Idea for Us?** This will also take them to the **Ideas** form.

When users click on the **Ideas** link or the **Got any Idea for Us?** tab, they will see the screen below.

ADM New Ideas Link

User can fill out this form with their ideas.

The screenshot shows a web form titled "Got an Idea?". At the top, there is a blue header with a question mark icon and the text "Please provide your idea below." Below this is a "Summary*" text input field. Underneath is a larger "Description" text area. To the right of the description area is a small icon of a computer monitor. Below the description area are two text input fields for "Name" and "Email". At the bottom left, there is a checkbox labeled "Include data about your current environment, like the browser and page URL. This helps us understand your feedback better." Below the checkbox is a link: "What is included in the data about my current environment?". At the bottom right, there are two buttons: "Submit" and "Close".

They can click the checkbox by **Include Data about your current environment ...**, and then click the link below it to see what data will be sent to 365. They will see the type of information from their system shown below.

This screenshot shows the same "Got an Idea?" form, but with the fields filled out. The "Summary*" field contains "My idea". The "Description" field contains "My idea is to have an idea link". The "Name" field contains "Kelly Jeffrey" and the "Email" field contains "Kelly.Jeffery@365retail.com". The checkbox "Include data about your current environment, like the browser and page URL. This helps us understand your feedback better." is now checked. Below the checkbox, the link "What is included in the data about my current environment?" is visible, followed by a list of system data: "Location": https://ret4.roadifytech.com/roadify/pub/idea; "Platform": https://ret4.roadifytech.com/roadify/home/dashboard; "User Agent": Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.119 Safari/537.36 Edge/15.15963; "Screen Resolution": 2256 x 1271. At the bottom right, the "Submit" and "Close" buttons are still present.

ADM New Ideas Link

A Product Jira card will be opened and assigned to the Product team for review.

A screenshot of a Jira card titled 'My Idea' with ID 'PR-973'. The card content includes:
