

Release Notes Mobile App 3.5.1

The following new features and updates were deployed on 4-2-2020.

Mobile App 3.5

Good news! We received your requests and we've made improvements. Check out what we've been up to:

- We know many 365 Operators are under severe financial pressure and closing locations due to the ongoing global crisis. We have several options to alleviate the pressure and offer immediate assistance. This release adds in additional functionality, including "hiatus mode", to support those options for the Mobile App and 365Beacon. Contact your Sales Representative to discuss options today!
