

365 NanoMarket™

Convenience technology that can be used anywhere you need it to be.

Have a smaller breakroom that you want to bring convenience to? Or have a larger location where you want to streamline the checkout experiences?

The 2018 Automatic Merchandiser's Readers' Choice New Product of the Year— 365 NanoMarket™ is modern, tablet-based device for smaller breakrooms or can be used as an additional checkout point at your larger locations.

This cashless self-checkout kiosk has a built-in 2D barcode scanner which provides employees around the world an easy way to snack by quickly scanning products and utilizing 365's payment app: 365Pay.

The NanoMarket quickly and easily mounts to a countertop and offers both cellular and hardline connectivity, making installation a piece of cake!

- | Additional convenience touch point in your larger markets
- | Lower cost than traditional MicroMarkets
- | Brings convenience to your smaller organizations
- | And more!

Get your tablet-based technology today!
