

## 365 Dining Platform

# End-to-end technology solutions for the foodservice industry

365 Dining transforms in-house dining with one focus in mind: the customer experience.

### ReadyFlex POS

Flexible dining point-of-sale technology with both self-service and cashier capabilities within one intuitive platform.

### Self-service dining kiosk

365 Dining self-service kiosk ideal for placement in both dining and micro market environments, providing a seamless and innovative ordering experience for customers.

### Order Management System

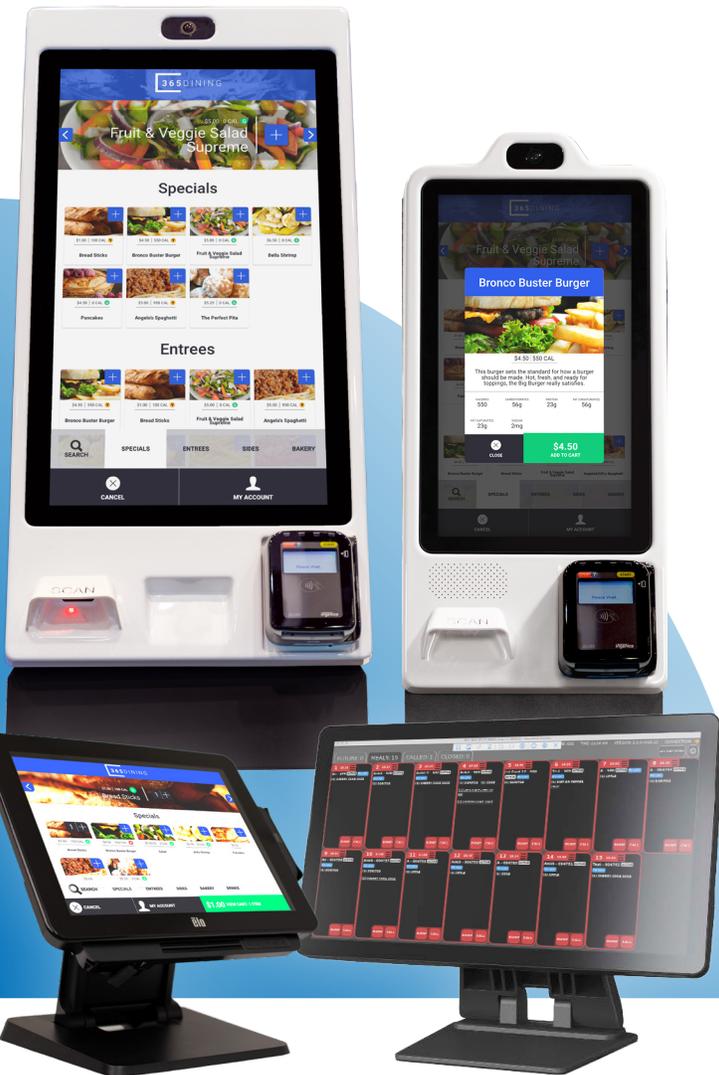

The 365 OMS keeps your kitchen and front-of-house in sync with Kitchen Display System (KDS) and Now Serving screens — reducing errors, boosting productivity, and keeping guests informed in real time.

### ADM back-end management

ADM puts your entire operation in one place — menus, promotions, reporting, and inventory across dining, micro markets, coffee, and vending. Spend less time switching platforms and more time driving profit.

### Additional benefits with 365 Dining

- Order Ahead and the 365Pay app
- 365 Loyalty program

Transform your dining operation
