

V5 Software Platform

Next-level Micromarket Innovation

Incorporating years of feedback and refinement, the V5 Platform has several new features for your MicroMarkets.

Enhanced security

Operates on our new VPN and E2EE infrastructures. Built for quick transactions, detailed reporting, data security, and multiple payment methods.

Intuitive consumer experience

GMA-enabled with easier account management, new on-screen animations, unlimited buttons and layered menus. Consumers can pay using the 365Pay mobile app.

Commercials & promotions

On-screen dynamic advertising space on idle screen. Upload and manage images at your convenience.

Manage your business your way, on your time with ADM

Robust back-end system gives you more control than ever to run your business how you want.

**CONTROL
EVERYTHING**
ON ONE BACKEND
SYSTEM

What can ADM do for your business?

- Real-time reporting
- Product & menu creation
- Inventory management

See how the V5 Platform and ADM can power your business.
