

365Dining OrderAhead

Enhancing consumer dining experiences online & from their phones

OrderAhead

Ordering food at your dining locations is now more flexible and convenient than ever before! Your consumers simply place their order whenever they want, from their 365Pay app or from MyMarketAccount.net all through Touchless Transactions.

Provide your consumers with a worry-free checkout experience and a way to skip the line and get quickly back to what matters!

- Eliminate long lines and provide consumers with faster, hotter food!
- Make more money! Increase throughput, enhance operations and optimize labor force.

The innovative Kitchen Display System is now part of the 365Dining experience! KDS allows you to do a lot more with dining than you've ever been able to before.

Kitchen Management Functionality

Stop working off paper receipts and add the KDS touchscreen and/or bump bar to efficiently manage many orders at once.

Customizable Now Serving Screens

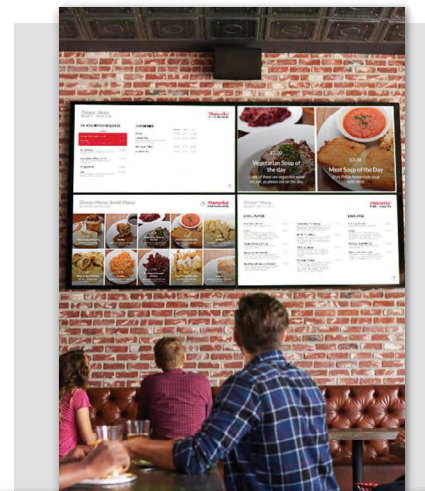

Relieve your customers anxiety of mulling around the pickup station and provide at a glance status of all orders.

Data Driven Functionality

KDS works with you to group/count 'all day items' for insights you need in the highest volume kitchens.

Efficient Consumer to Kitchen Communications

KDS allows you to manage multiple kitchen stations and even add an expeditor KDS to consolidate orders together.

365Dining brings more to the table.
