

Installing Your New Market

Welcome to Avanti Markets!

We are excited for you to become part of Avanti Markets.

We are happy to assist you to begin the new journey and guide you through. Below are some instructions that you will find helpful when installing our market.

- **How to notify your staff**

Attached to the email, you will receive a document titled “Grand Opening”. This is a document for you to print, email, and share with your staff to get them excited about the new market install!

- **How to prepare the space**

When we install a new market, we advise to have a clear space prepared for the installation. It is very important to make sure there is enough room to install the market.

This means:

- **Make sure there is a clear path for our installers.**

Please understand that our installers need a clear path for safety and have enough room to bring and install our machines. This means unnecessary items such as furniture or stored items should be removed as well.

- **Double check your power requirements.**

Please make sure that you have read and have understood our ‘Power Requirements’ guide. This is important when installing new market for our installers to connect all our machine to power and run smoothly. This means all designated plugins for equipment are powered properly and ready to go.

- **Double check the ‘Network Requirements’.**

‘Network Requirements’ is as important as ‘Power Requirements’. Please make sure that you have read and understood what the requirements are. When installing, having a properly working network is essential. Make sure that the hardwired connection is functioning and ready to go.

Thank you for choosing Avanti Markets. We are very excited to begin our journey together!
