

# SECURELY EXPAND YOUR REFRESHMENT SERVICES WITH SMART N GO!

Today's on-the-go consumers are seeking meal and refreshment choices that cater to their preferences. They want the ability to select healthy options, read ingredients and nutritional information, and even choose from fresh and frozen treats - all while enjoying a fast and easy purchasing experience.

## This is what you get with Smart N Go:

|                     |   |
|---------------------|---|
| CONVENIENCE         | Quick swipe grab-and-go refreshment within a minute!  |
| EASE                | "Intelligent" design updates cart real-time as products are removed from shelves; when done shopping, just close door and walk away |
| SELECTION           | Broad product variety and fresh food options  |
| STYLE               | Enhance the look and feel of your space with the contemporary design of Smart N Go  |
| PAYMENT FLEXIBILITY | Credit, debit, cash, mobile pay, and member card account options  |
| SECURITY            | Minimize shrink. Products are secured behind locked glass doors; payment authorization required to open                             |
| CUSTOMIZABILITY     | Modular design can be tailored to most locations and products   |

## How it works:

- All products are secured behind locked glass doors
- Customer authorizes their payment method to unlock door
- Infrared sensors capture real-time selection of products
- Automatic tracking records items as they are removed or returned to shelf
- Shopping cart is auto-populated with purchases
- When finished shopping, customer can shut door and walk away

# UNATTENDED, INTELLIGENT REFRESHMENT FOR PUBLIC AND TRANSIENT SETTINGS

## Modular configurations for almost any space

Smart N Go can be configured to address your unique location needs with:

- Main Station for consumer interaction - print receipts, create/add funds to member account, and present How-To videos
- Refrigerated Module for beverage and fresh food
- Ambient Module for snacks and sundries
- Coffee Module with bean-to-cup brewer
- Freezer Module and microwaves for frozen meals and treats (Coming Q4 2019)

## Smart N Go is ideally suited to enhance and expand refreshment experiences in:

- Office complexes and multi-tenant buildings
- Schools, colleges and universities
- Hospitals and medical centers
- Airports, train and metro stations
- Hotels, resorts and cruise lines
- Athletic stadiums and arenas
- Military bases and prisons
- Entertainment centers, e.g. casinos, museums, zoos, and more
