BENEFIT FROM THE AVANTI ADVANTAGE

When it comes to providing quality workplace refreshment, standard vending machines just don't cut it anymore. That's why companies everywhere are switching to Avanti Markets™ micro markets.

When you get your market from Avanti, you're in good hands – Avanti is the leader in micro market service and technology. In fact, we invented micro markets back in 2009 and since then have installed more than 7,000 across the U.S. and Canada.

All that experience has helped us fine-tune our markets so that we can deliver the five key benefits that will make the biggest positive impact on your organization – the Avanti Advantage:

- 1. Custom Solutions
- 2. Variety & Convenience
- 3. Health & Wellness
- 4. Security
- 5. Improved Morale

“ ALL WE HAD TO DO WAS PROVIDE POWER, AN INTERNET CONNECTION AND A SPACE FOR THE MARKET. AVANTI DID THE REST. ”

**IT'S LIKE
HAVING YOUR
OWN SELF-SERVICE
CONVENIENCE STORE...
AT NO COST TO YOUR
ORGANIZATION!**

1

A Custom Fit for Your Organization

Every organization is different – that's why **each market is custom built** to maximize the space you have – from large meeting areas to small breakrooms.

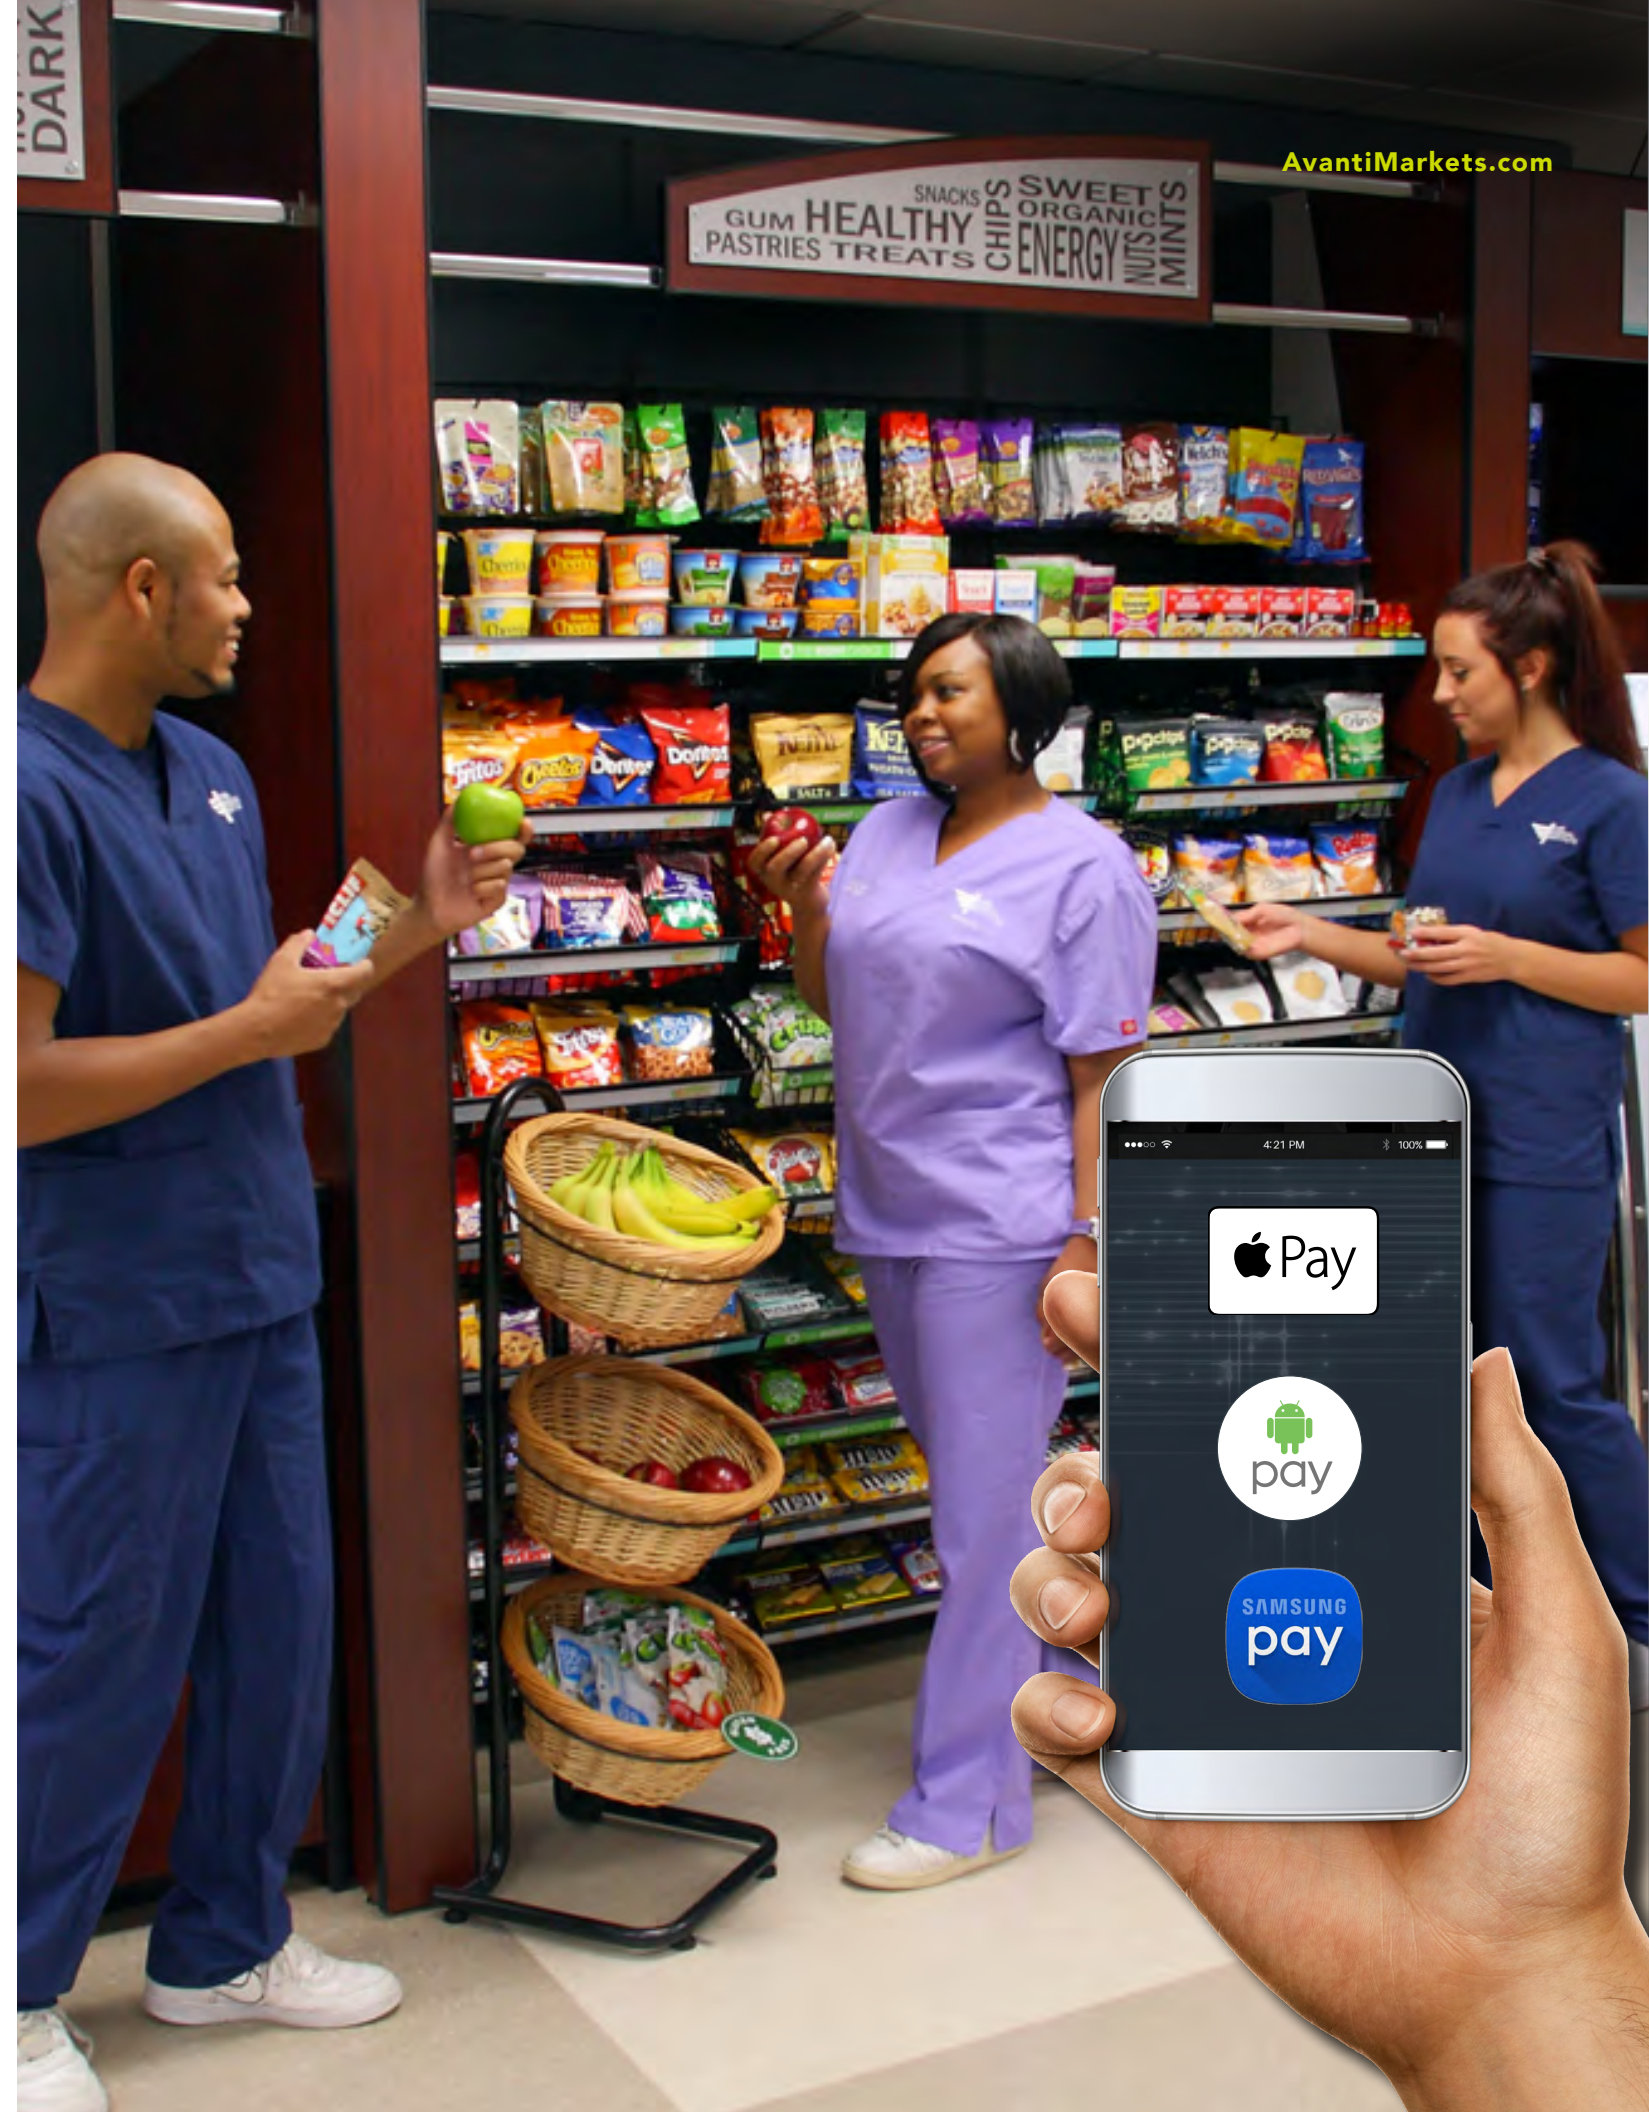

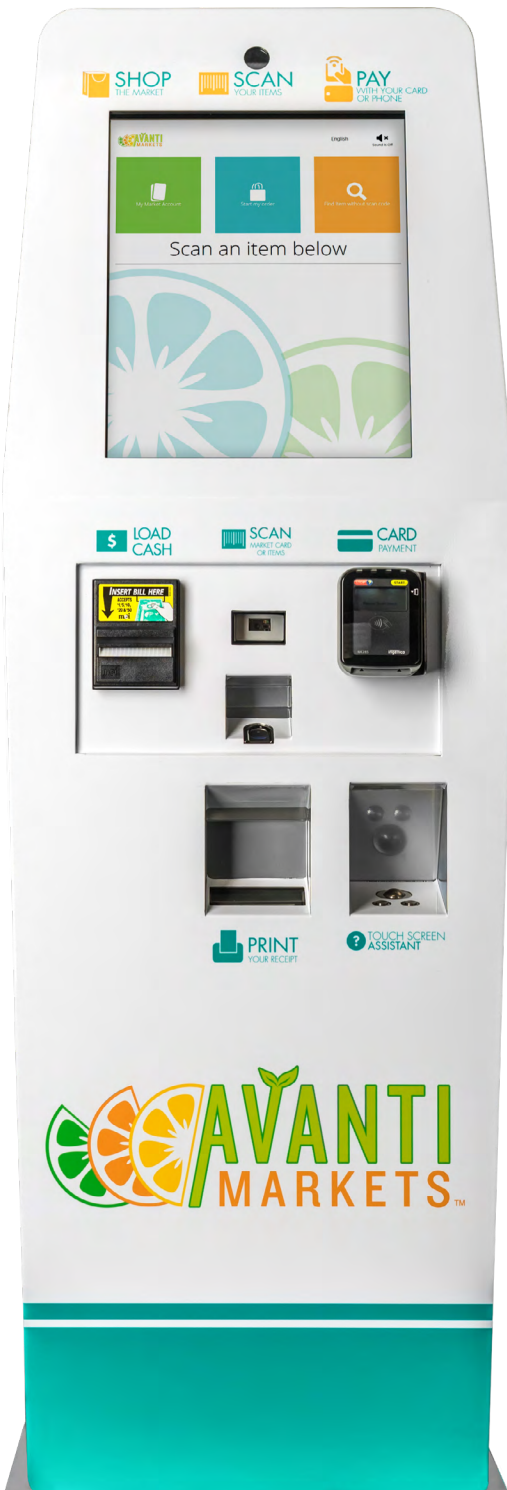

- We'll help you support your green building initiatives with reduced energy consumption and Energy Star coolers.
- When complete, your market is stocked with your employees' favorite drink, snack and food selections.

2

Variety and Convenience

At the heart of every Avanti micro market is a self-service kiosk. This is the **cutting-edge technology** that enables your market to deliver mind-blowing variety and convenience.

- Each market offers hundreds of choices to employees – delicious meals, fresh fruit, snacks and drinks.
- Employees can pay for their purchases with credit, debit or the amazing Market Card – Avanti's stored-value rewards card.
- When they use their Market Cards, employees earn rewards with every purchase.
- The Market Card can be funded from the kiosk (with cash, credit or debit) or online. You can even offer a convenient payroll deduction option.
- Your employees can also enjoy the convenience of paying with their smart phones using Apple Pay, Google Pay, Samsung Pay or the Avanti mobile app.

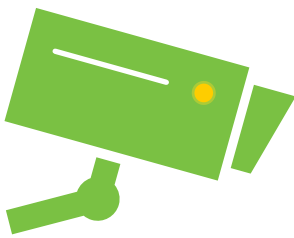

3

Health and Wellness

In addition to being extremely convenient, micro markets are instrumental in **helping your employees live more healthy lifestyles.**

- You get shelves and coolers full of healthy options – including organic, low-fat and gluten-free selections.
- Employees can browse the market and read labels and nutrition data – before they buy – to help them make the best choices.
- You can even use the Avanti system to subsidize the cost of healthy options and encourage better eating habits.

4

Security

Every Avanti market comes equipped with surveillance cameras and other security equipment that works with the kiosk to watch over the market and keep theft to a minimum – around 1%. Best of all, your market provider is responsible for any shrinkage that does occur, so **there is no risk to you.**

5

Improved Morale

Many satisfied customers have told us that the best reason for installing an Avanti micro market is for the morale boost – **employees love it!**

- Employees are more productive. They stay on site more and are happier because they have a nice place to go for a break.
- No need to go out for lunch – they stay to enjoy the market and hang out with friends.
- You can use the market to offer extra perks and rewards with special promotions.

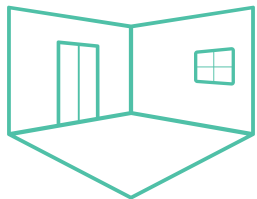

EMPLOYEES ENJOY HUNDREDS OF GREAT FOOD OPTIONS

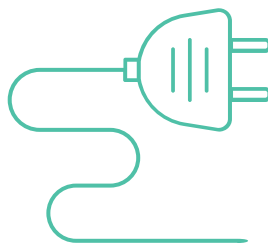

HERE'S ALL YOU NEED

SPACE:

An employee area away from public foot traffic.

ELECTRICITY:

A power supply for the kiosk system and refrigeration units.

INTERNET:

A secure, high-speed broadband or DSL line is best.
