

ADM by 365 Retail Markets

Power your entire 365 ecosystem on your time, from any device, with ADM.

A robust back-end management platform providing complete operational control and market insights.

Explore the value ADM provides:

Reports/Scheduled Reports

Set up an organized list of reports that can be viewed in ADM or downloaded as PDF or Excel files. Automate your reporting by running reports automatically and have the results sent to you through email.

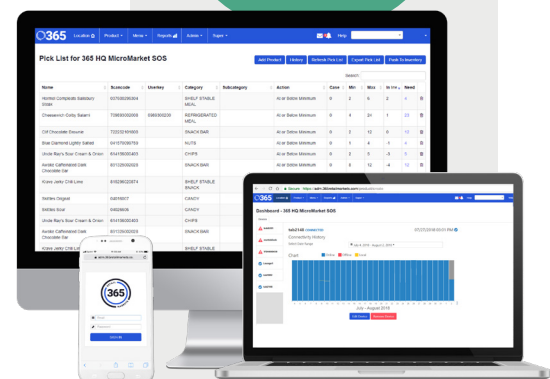

Date	Location	Transactions	Item Count	Sales	Taxes	Deposit	Discount	Total Sales
9/27/22	365 Retail Markets - 2525664 KRVO	13	14	\$27.77	\$0.72	\$0.00	\$0.00	\$28.49

Real-time Reporting

Get data in your reports as soon as it happens on the kiosk. Data and metrics are uploaded to ADM after every transaction, so you always have a real-time view of market activity.

Date	Location	Transactions	Item Count	Sales
09/01/22	365 Retail Markets - 2525664 KRVO	35	53	\$128.49

Product & Menu Creation

Create café menus for breakfast, lunch, and dinner, and schedule them to automatically switch when those periods start and end. Alternatively, add non-scannable items to your micro markets, such as fruits and coffee pods, for customers to purchase at your kiosks.

The screenshot shows the 'Product Summary' form in the 365 system. It contains two main sections: 'Basic Info' and 'Advanced Info'. The 'Basic Info' section includes fields for Name, Description, Category, Sub-Category, and Type. The 'Advanced Info' section includes fields for Price, Cost, Weight, and various flags like 'In Stock' and 'Pick List Action'. There are also tabs for 'Inventory' and 'Menu' at the bottom.

The screenshot shows the 'Micro Market Menu' for a specific location. It displays a grid of products with columns for Name, Price, and Cost. The menu is organized by category, with sections for 'Beverages', 'Snacks', 'Lunch', and 'MISC'. Each product entry includes a name, a price, and a cost. There are also tabs for 'Inventory' and 'Menu' at the bottom.

Product Management

Create products globally across all of your locations or send them exclusively to specific markets. Using the Global Product Change, you can adjust a wide range of product details with a few keystrokes. Alternatively, make small price adjustments to specific products at a single location.

1/2 Roast Beef and Cheese on Multigrain	\$2.99	\$1.39	0	0	71-BRANDED FOOD	At or Below Minimum	0		
1/3 Lb. Cheeseburger	\$4.75	\$2.29	0	0	71-BRANDED FOOD	Hide From Pick List	0		
1/3 Lb. Cheeseburger on Ciabatta	\$4.59	\$2.34	1	10	71-BRANDED FOOD	At or Below Minimum	0		

Inventory Management

Easily stock, count, and pull stale items through the Mobile Inventory website, right from your phone! Mobile Inventory turns your phone's camera into a barcode scanner, eliminating the need to purchase specialized hardware. Additionally, you can run pick lists and update inventory values right from ADM.

The screenshot shows the '365 HQ MicroMarket SOS' mobile app interface. It features a 'Select an action' menu with options: 'Add Products', 'Remove Products', 'Physical Inventory', and 'Lookup Product'. At the bottom, there are 'BACK' and 'LOGOUT' buttons.

The screenshot shows the 'Complete Inventory' mobile app interface. It displays a list of products with their names, barcodes, and quantities. At the bottom, there are 'CANCEL' and 'FINISH' buttons.

On-screen Inventory

Manage location-level product inventory values directly from ADM. Maintain accurate counts of on-hand inventory by associating reason codes when adding or removing products from inventory.

Dashboards

Our intuitive dashboards give you real time access to your location's daily performance. Dashboards report in real-time and will quickly display the number of daily transactions, daily sales, cash on hand, and more. Dashboards are a great tool to view the health of your markets at a quick glance.

Bundling/Promotions

Promotions are a great way to influence consumer behavior. ADM offers the tools to customize promotions in multiple ways to help drive product sales. Promotions can be used across all ADM platforms, Pay apps, and OrderAhead. There is a lot of customization for promos, so you can get very creative with them!

Search and manage consumer accounts in ADM with ease. You can search for specific consumers by their Name, Email, Scancode, Location, or Market ID. You can check on the status of their account (Active or Closed), market cards associated with their account, and any account adjustments, purchases, or funding history. Operators can add funds to consumer accounts, but cannot deduct.

User Roles

Operator allows full read and write access to the ADM website. **Reporter** allows “View Only” access to the ADM website. **Driver** allows for limited read and write access that pertains to Driver roles.

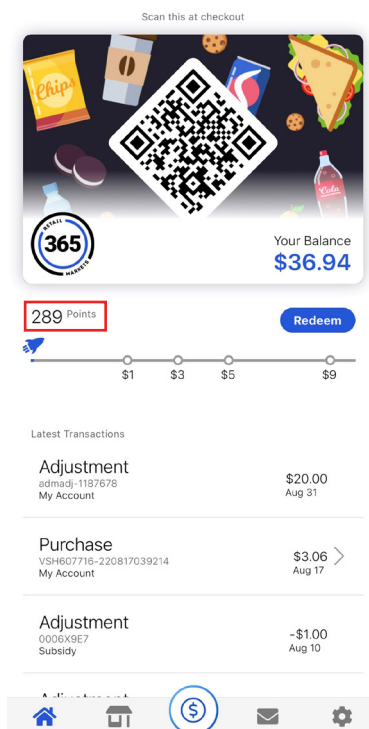

Tender/Tiered Pricing Promotion(s)

The Tender Discount allows you to enable a discount based on how consumers pay for their transactions. You can discount transactions when consumers pay with a GMA account, credit/debit card, or cash (cash only applies to ReadyTouch transactions). Using this discount effectively creates a two-tiered pricing system. Your account and cash customers, who save you money in credit card fees, are rewarded with an automatic discount every time they checkout.

©2022 365 Retail Markets Inc. All rights reserved.

Loyalty System

The built-in loyalty program for GMA allows consumers to accumulate points with each purchase and then redeem them for cash back on their accounts at loyalty-enabled locations. The reward program is also a great way to promote products by making certain products worth more points.

Subsidies

With the Subsidies feature, customizable groups can be allocated a daily, weekly or monthly funding amount. At the end of each period, the funds will be automatically topped off or rolled over, with no further action needed from the operator.

Top Off Subsidy					
Default	Start Date	Recurrence	Group Name	Amount	
<input checked="" type="checkbox"/>	<input type="text" value="06/06/2022"/>	<input type="text" value="Daily"/>	<input type="text" value="SubsidyTopOff"/>	<input type="text" value="10"/>	<input type="button" value="-"/> <input type="button" value="+"/>

Rollover Subsidy
