

# Boost Revenue with Digital Ads

Lightspeed Vision makes marketing your products easy and effective

## The smartest way to advertise

Our online digital advertising program allows you to push marketing content to TV monitors in your clients' locations. You control what, where, and how long each ad plays. Vision lets you promote new and sale items, elevate your brand image, and communicate important information to customers.

All you need to get started is a TV monitor, an internet connection and a Vision plug-in device.

- Influence customers moments before they make purchasing decisions
- Manage promotions from any device on our web-based advertising platform
- Schedule ads to play at the time and location of your choice
- Increase revenue & gross margins

**Market your products easily and effectively.**
